New product

Scope

Extension of the Roto Safe programme with the AS 690-1 striker series.

The AS 690-1 series corresponds to the AS 202 series but with reduced contact pressure (-1mm) and a modified screw axis of 22mm.

The series can be used with various profiles of the system manufacturer Gealan, depending on the steel reinforcement used.

The exact application possibilities can be obtained by checking the profile.

The variants shown in the article list are available.
