

Product Information

Phase out bullet-catch tracks Patio Alversa

Discontinued Product

Availability / Ordering ability

Because of a justified complaint regarding the function of the bullet-catch tracks, they had to be adapted.

It has not been possible to keep the old bullet-catch tracks or to continue producing them, as the existing die-cutting tool has been adapted.

A rebuild is no longer possible. Full function is only guaranteed by the new bullet-catch tracks.

The new Alversa bullet-catch tracks can be installed with both attachment espagnolettes and NT/NX espagnolettes and handles.

Changeover:

Before switching to the replacement, use up the stock of the phase out articles.

When using Alversa attachment bullet-catch tracks on wood and plastic profiles, please switch to the replacement articles immediately.

The stock of Alversa bullet-catch tracks must be used up in combination with NT/NX espagnolettes and handles.

Phase out date: with immediate effect respectively remainders are used up

Spare parts are not intended.

Return shipments are not possible.

Product Information

Product Brand: Roto Patio

Patio Alversa KS optimized bullet-catch tracks

Related Products

Roto Patio
New product

Application range

- Patio Alversa KS
- Frame material: timber, PVC and Alu-profiles with 16mm hardware groove (NT)

Technical Details

The Patio Alversa KS bullet-catch tracks have been optimized in the area of the bullet-catch to be able to reach the final position also in combination with geared-handle considering all tolerances.

The position of the drilling holes, the catch and striker seats is the same on the optimized bullet-catch tracks as on the previous Alversa bullet-catch tracks.

The installation of the optimized Patio Alversa bullet-catch tracks has also remained the same.

The data drawings of the new Patio Alversa bullet-catch tracks are available.

Documentation

The new articles will be updated in the next version of the applicable documents of the Roto Frank window and door technology GmbH.
