

## Roto Safe - Changeover latch adjuster

### Overview

#### System

Door

#### Product

Roto Safe

Multipoint locking systems for  
doors

#### Availability / Ordering ability

01.03.2024 from factory  
Kalsdorf

### Description

All striker strips with AT will be equipped with a reinforced latch adjuster in the future.

#### reinforced latch adjuster:

- high functional reliability thanks to fixed screwing
- sticker for square nuts no longer necessary
- adjustment range :  $\pm 1,5$  mm via excenter (user-friendly)
- milling required (when using E-opener also required)

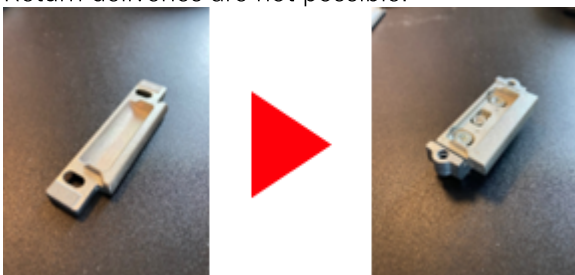

#### standard latch adjusterl:

- Adjusts itself autonomously when closing the door
- required fixing square nuts with sticker
- adjustment range:  $\pm 1,5$  mm via oblong hole
- no milling necessary

The article numbers remain the same.

The striker strips will be delivered with the reinforced latch adjustment part from the Kalsdorf factory from 01.03.2024.

Return deliveries are not possible.
