Product
Roto Line

The classic handle line

**Availability / Ordering
ability**
with immediate effect

Description

Roto is committed to sustainability, which is why we have switched our handles from wet paint to a more environmentally friendly powder coating; the new powder has the designation R01.5M 1080. This change has already been communicated for the new catalogue.

Please note:

No more wet paint also for special colours!

The reasons for our changeover:

- High-class anticorrosive coating + better quality
- environmentally friendly finish by powder coating
- sustainable

The new handles are available immediately and at the same gross price as the wet paint version
