Description

A variant of the cable junction with a square faceplate has been added to the range for use with aluminium doors with a 24 mm groove.

The technical features remain the same as for the variant with a rounded faceplate:

- 6-pin, detachable plug connection
- integrated power supply unit (24 VDC / 2,5 A)
- connector side with 3 m cable for connection to 230 V
- clamp strip for external access control systems
- integrated LED indicator
- Stainless steel face plate (earthed)
