#### Product

Roto Safe

Multipoint locking systems for  
doors

#### Availability / Ordering ability

### Description

If a multi locking point system is needed in low quantities and there is no existing SAP-code, you don't have to create a product request. It can be ordered with a special-code under the following conditions:

- **Maximum quantity ordered is 10 pieces per position.**
- The desired lock is a combination of faceplate with **basic lock from the current serial production** (see attached tables)
- Multi point locking systems with expired basic locks can only be ordered with the **replacement-part-regulation** (see PI 09 1057)
- That applies also to special production of strikers and one-piece striker strips.
- Examples:
  - 799350 1 pc. 786492 but with baselock 4092P8
  - 562087 1 pc. 787993 but with baselock 6592P8

Attention: Only locks with a different basic lock can be ordered with these special order numbers. If other locking pattern or faceplates are required, please contact the Door application team (Karl Haidic or Thomas Rieger).

### Article Overview

Article Code	EAN No.	Unit	Material Group
<b>562087</b> Sonder C500/C600/H650 4E 4V	9005904301230	1	VK € 49,00

<b>Article Code</b>	<b>EAN No.</b>	<b>Unit</b>	<b>Material Group</b>
<b>562088</b> Sonder C500/C600/H650 2C 2CB 2CH	9005904301247	1	VK € 59,00
