Roto NT

The world's biggest selling
Tilt&Turn hardware system for
windows and balcony doors

Availability / Ordering ability

Description

The restrictor and cleaning stays listed below are being removed from the program. There is a modified replacement.

Technical information - further information can be found in PEP PI
RPI_24_0003:

The mounting/unmounting of the items below has been revised.
A spring plate no longer has to be laboriously lifted, but the safety device is now pressed with the fingertip and released (see picture).

The sash weight for tilt sashes with restrictor and cleaning stay has increased from 60 to 80 kg.

Restrictor and cleaning stay are recommended for tilt-only window; They are required for fanlight (according to RAL RG 607 / 12).

The sash rebate dimensions are unchanged.

The new items cannot be combined with the components of the previous version!

Make sure that the frame and sash parts are always replaced together.

Phase out date: 31.07.2024

Exception DACH, which means that after July 31th, 2024 an order entry is only possible for DACH customers.

Spare parts: are not provided

Return deliveries are not possible!
