Reinforced version of threshold holder

### Overview

#### System

Door

#### Product

Roto Eifel

Tailor-made range of thresholds for tightly sealed accessible doors and balcony doors

#### Availability / Ordering ability

Orderable

#### Documentation

### Description

- Reinforcement of the walls of the threshold holder to prevent the screws from breaking out when tightening.
- An additional centering hook that connects the threshold holder to the frame profile in a torsion-resistant manner, even outside the screwing area.
- Anti-twisting devices and additional screwing options ensure a stable connection between the threshold holder and the floor threshold
- A seal for the threshold is located on the connection side of the threshold holder
- With cover caps to cover the screw holes
- Can be used for all frame and post profiles with the same rebate geometry, as the connection is in the rebate area
- Threshold holder made of thermoplastic PC/ASA --->Components made of PC/ASA must not be brought into contact with cutting oil.

- Delivery without fastening screws → Screwing suggestion threshold holder to threshold: Countersunk screw Ø 3.5 x 50 see PI 20 1444.
- Matched with Eifel TB thresholds.
- Suitable with Eifel TB tilt bearing
- Suitable with Designo II corner bearing
- Suitable with Designo II base for Eifel TB threshold (771917 / 771918)
