Product

Roto Solid

Comprehensive range of door hinges

Availability / Ordering ability

Description

Over the years, a total of three different powders for RAL1036 pearl gold have been added to the range by various manufacturers.

Each powder produces a different surface (for pictures see slide 1 of the pptx).

The hinge families are also mixed: there are PS hinges with the powder from Tiger and hinges with the powder from Axalta.

We would like to standardize the various RAL1036 shades in a new shade from the manufacturer Pulvercoat (see slide 2).

In this way, we can ensure that there will only be one surface for RAL1036 in the future.

Phase out date: September 30th, 2024 or when the powder is used up

Spare parts are not intended.

Return shipments are not possible.
