Description

Detachable cable transition with alarm glass connection, with shorter spiral (100 mm)

- 6-pole miniature cable transition for windows and French doors
- Concealed in the window rebate
- Simple separation of the cable transition via the plug connection in the rebate area allows the sash to be unhinged
- Includes alarm glass connection on the sash side

- Cable lengths:

Socket side, outside the spiral (sash) 0.23 m

On the plug side (frame) 6 m

- Accessories required:

619588 Cover plate wood or
619589 Cover plate PVC/ALU

- Security levels RC2 and RC3 possible depending on the overall system
- Positioning on the hinge side at the bottom
