

Product Information

Com-Tec sensors without battery

Overview

System

Equipment

Product

Roto Com-Tec Sensor

Wireless sensors integrated in hardware for home security

Availability / Ordering ability

Available immediately, stock items are reworked

Description

Change to scope of delivery

In future, no batteries will be included with Com-Tec sensors

In order to ensure that the batteries do not age throughout the entire supply chain and warehousing and thus always guarantee reliable function and optimum battery life, batteries will no longer be included with Com-Tec sensors.

The following battery manufacturers are recommended:

CR1632 from the manufacturers Camelion, Energizer, Jauch.

If (still) inserted batteries are received with a delivery, it is recommended to replace them with new batteries from the manufacturers mentioned.
