Roto Solid B

Butt hinges for doors

Availability / Ordering ability

Description

As part of a production optimization effort, the white frame and sash bushings on the butt hinges will be replaced with black bushings in RAL 9016 going forward.

This change affects only the color of the bushings. Function and quality remain unchanged.

The frame and sash bushings are not visible when the unit is installed. All visible plastic parts—the top cover cap and the screw covers on the outer sash—will remain white.
